- 4) FREE online downline building system: www.mlmrc.com
- 5) Website / Blog

WAYS TO GROW YOUR DOWNLINE

1

CREATE A WARM LIST

Who is your warm market? Example: who can you contact right now, to show them the opportunity? Contact them first that will kick-start your growth.

2

CREATE A EMAIL LIST

Start building an opt in email database of possible prospects. You can get a free list of 1 million mlm leads at: MLMRC.com

3

START A MEETUP GROUP

Go to meetup.com and start a meetup group in your local area for people to show up to. Then when they arrive have it set up to show off your opportunity and gather leads for your list.

4

JOB INTERVIEW METHOD

You rent an office. You place local job ads in your area. You arrange for people to show up at your meetup group and or your office for an interview. Then when they arrive you have coffee and donuts to keep them interested. Then you have them watch your companies main recruitment video, to get them to join your network marketing team.

5

SOCIAL MEDIA

Begin to work on building up your social media. So open a twitter account and start a facebook group page for your opportunity. Also join all the mlm facebook groups you can find. Plus join a lot of other social networks. Use these platforms to advertise your opportunity.

6

PRODUCT SAMPLES

If you have a really good product that works great, or tastes amazing, then share it. Get products samples from your company and start sharing them. When you share one get the persons contact info to add to your prospecting list. So your giving out a sample in exchange for a lead or new sign up everytime.

7

FARMERS / FLEA MARKETS

Setup a booth at a farmers market or a busy flea market. Alternatively find someone who has a booth and get them to allow you to leave your brochures, samples, and business cards at their booth. Try leave brochures at multiple booths.

8

COMPETITION

Find out what the competition in your area are doing well? And what is your upline is doing? Do some competitive intelligence, and copy them.
