## **GETTING STARTED:**

### **STEP: 1 - SEND THIS TO YOUR DOWNLINE IMMEDIATELY!**

The very first step you want to do is send this document over to each of your downline members. Email each of them a copy now. This is the most important step, as it will instantly compound your efforts. Instead of just using this

**powerful** strategy yourself; now you'll have your whole team using it. Just email a copy of this document to them. Or they can download it by going to the site below:

Send your downline to **watch the recruitment training** and get this ebook at:

<http://www.mlsrc.com/700in24-free-mlm-training.htm>

## **STEP: 2 – GET OUT A NOTEPAD**

**SUPER IMPORTANT:** Get out a notepad and take some notes on this training. You want to do more than just watch or read. Below we dive into this magic strategy, so you need to take notes. Plus you want to watch the free video here, several times until it really sinks in:

[www.mlsrc.com/700in24-free-mlm-training.htm](http://www.mlsrc.com/700in24-free-mlm-training.htm)

**ULTRA SUPER IMPORTANT:** You'll also want to watch this video at very least 10 times (if not 100 times). See each time you watch it you'll understand this recruiting strategy better and better. Eventually you'll gain the confidence and understanding necessary to use it.

Then eventually once you start doing this recruiting method several times you'll eventually get good at it, and eventually master it! Once you've mastered this one strategy, well the rest is history, as you'll be able to recruit endless people into your mlm downline! Watch the video here:

<http://www.mlsrc.com/700in24-free-mlm-training.htm>

## **STEP: 3 – RECRUITING STRATEGY OVERVIEW**

Following just any strategy would actually be "**totally stupid**". Try to avoid that unless you've seen proven results. Well in this case we know this strategy got **MASSIVE** results for those that used it!

The individual in the video is "Holton Buggs". He's a professional network marketer. He is listed in the top 100 mlm earners as reportedly earning over six figures per month. He's all over Google, Youtube, Twitter etc etc. He reportedly is earning over **2.5 million per year** in his mlm. So he knows his stuff. And he's making this kind of money as a direct result of using this professional mlm recruiting strategy revealed here:

<http://www.mlmrc.com/700in24-free-mlm-training.htm>

So now you can copy this exclusive **power recruiting strategy** to potentially get similar results! (again we at: <http://www.mlmrc.com> hold nothing back it's all revealed below, so be sure to pass this info onto your downline or anyone in the network marketing industry okay; they'll absolutely love you for helping them out by showing them this #1 recruiting method...)

When you think about it, there's all kinds of mlm recruiting strategies you could do. Some online, some offline, but they all share 1 common problem. They're all **WAY TOO SLOW**. Ya you might see progress with them in several weeks or months, but usually not the same day. And likely not in a few days.

Well this strategy has literally got to be one of the very best and fastest ways to build your MLM downline!

Likely in the top 10 recruiting strategies out there - as something anyone can do, quickly and easily, to build their downline FAST (again it's **100% FREE** to do!). Now if you want to learn even more recruiting strategies then be sure to sign up for our free newsletter at: [www.mlmrc.com/newsletter.htm](http://www.mlmrc.com/newsletter.htm)

Until now this recruiting strategy has been a closely guarded secret within the MLM elite inner circles. Perhaps they didn't want just anyone knowing about it or it might dilute it's power. However, in this revealing video below, professional networker: Holton Buggs, reveals this powerful strategy. So again please take notes and click the link to watch the video training here:

<http://www.mlmrc.com/700in24-free-mlm-training.htm>

## **STEP: 4 – WATCH THE SECRET TRAINING VIDEO AT:**

<http://www.mlmrc.com/700in24-free-mlm-training.htm>

**Also pay close attention to what he says at: 7:20+ (POWERFUL HOOK!!!)**

**Remember, DO NOT WATCH THIS VIDEO JUST ONCE** – This guy shows you a powerful recruiting strategy that works. If you master this one strategy you won't have to do anything else ever again. Just master this one thing and you'll add

potentially dozens of members each month to your downline. So watch it at least 10 times. Make TIME TO DO THIS, and make it important. Focus in on it. And get your downline using it also by emailing each of them a copy of this ebook.

And once you're comfortable with how the strategy works, then launch it and put it to work for you! In your recruiting efforts.

Now this is a very hands on recruiting strategy. It's going to take up a lot of your time. So what you also want to have get working immediately as well, is the **automated recruiting system** available at: <http://www.mlsrc.com> This system available at MLMRC will recruit for you 24/7/365. So go there and get that set up as well, which you can do in as little as 10 minutes. Once you get set up, the MLMRC recruiting system will begin prospecting for you full time!

## **STEP: 5 – LAUNCH THE RECRUITING STRATEGY:**

Once you've watched the video several times, and shared it with your downline, then begin to launch the strategy and put it to work in your MLM business.

Click here to watch the free video recruitment training:

<http://www.mlsrc.com/700in24-free-mlm-training.htm>

First please note: The very first time you try this, you're probably going to royally suck at it! It's going to go horrible (most likely). You'll likely embarrass yourself. You'll flub up. You won't know what to say or how to answer questions. That's going to happen. Know that in advance. And know in advance that it's **100% okay!**

So the minor caveat is that just knowing the strategy doesn't guarantee you'll be able to pull it off on day 1 when you try it. It might take some serious practice before you're operating at the level of Holton Buggs. So day 1 might not mean that very many people join. However, that being said, – what if you could still use the strategy to recruit say a few per week? Or say a dozen per month? Would you be okay with that? It would be a good starting point.

You'd be on your way to an early retirement!!! Plus when you send this ebook and training to all your downline, what if some of them start pulling it off really well? What if some of your downline are able to really work this because they're good speakers. Well you'll benefit huge! So be sure to **forward this ebook to your downline!** Infact, why don't you do that right now while it's still fresh in your mind okay. (then after you've done that task come back and finish the rest).

This is now different than say for example learning to drive a car. Of course you're not going to be "great at it" when you first get started. So don't worry. It's okay. Just rinse and repeat the strategy over and over again. Each time you drove a car when you first started you slowly got better and better right? Eventually driving became easy right?

Eventually you're talking on the phone, while eating a burger while driving like it's no big deal. Well same with this. You'll start out not being that good. Eventually as you keep doing it over and over you'll get better and better at it. Eventually you'll be doing a masterful presentation. And eventually you'll start to see more and more people joining your downline. The same presentation outlined in the video here:

<http://www.mlsrc.com/700in24-free-mlm-training.htm>

(now of course like I said this strategy takes some work. And it will take you some time to really master. So in the mean time while you're practising it, be sure to sign up for the hand free **automated recruiting service** available at: [www.mlsrc.com](http://www.mlsrc.com) which doesn't require any special skills or time. It works 24/7/365 without you having to do anything. Just set it and forget it! Have it running in just 5-10 minutes. Go there now.)

## How do you know it will work?

Well this strategy has been proven to work! You already know the strategy works as you seen in the [recruiting video](#) . And you might not get as many to join as Holton Buggs, maybe you get somewhat less, but still that's a steady stream of new recruits joining your downline week after week right??? And this strategy can be applied to any MLM business, so can the **automated recruiting system** over at: [www.mlsrc.com](http://www.mlsrc.com)

But let me ask you this... lets just imagine for second, lets say "what if" you tried the system and you got even a dozen new signup's to join your MLM business in 1 day? If you did that day after day, you can rest assured you'll be set for life! You'll be on that top MLM earners board eventually as well! And as you get each of your downline doing this also they too will have massive success! So again be sure to forward each of them a copy of this free ebook. (again do that right now!)

Again, this strategy has been proven to work by "professional network marketers". So don't down it, crown it! Use it! It's a strategy that works! It's one of the most powerful strategies you'll find anywhere! Why would you not use a 100% free strategy that's already been proven to work right. So again, study that video, watch it multiple times over, master it, and share this ebook with your downline, either by sending them this file, and sharing this URL with them:

<http://www.mlsrc.com/700in24-free-mlm-training.htm>

## **Conclusion: The strategy works if you work it!**

What's the secret formula to network marketing?

**First:** it's recruiting.

**Second:** it's mastering one strategy that works like clockwork. This strategy gives you:

- maximum speed,
- Massive leverage,
- its duplicatable,
- it's free to do,
- and has all the right things going for it. And...

**Third:** is to get an **automated strategy** also in play, such as the one at: [www.mlsrc.com](http://www.mlsrc.com) that one only takes about 10 minutes for you to set up, then it just keeps working for you 24/7, week after week, month after month.

So don't put this off. You don't need to learn anything else. If you want to be successful in your MLM business; If you want to potentially make a fortune, and recruit tons of people, then watch the video, learn it, and use this strategy. The full strategy is detailed here:

**<http://www.mlsrc.com/700in24-free-mlm-training.htm>**

Because here's the BEAUTIFUL THING...NOW GET THIS...

You DON'T NEED TO DO THIS STRATEGY FOREVER! All you need to do is work it hard for a few weeks, or a few months. Or if you're really motivated perhaps a year! Because once you build up that initial downline that you need, the power of exponential growth and compounding take over. Your downline will eventually "start to grow on it's own"!

Again, once you do this for a while and you're able to recruit several hundred or thousand people, at that point that downline will also start using this strategy (as you'll be sharing this ebook and idea with them), and they'll then be able to grow on their own!

Yes that's right, you'll actually have made it! You'll actually be able to retire if you want! You'll have a huge growing income coming in each month, as you're downline continues to grow bigger and bigger each month on their own! At least you won't have to work that 9-5 job anymore if you no longer want to. You'll be able to start living your dreams, actually living life on your terms, with no one ever bossing you around again!

You'll have finally made it in life! At last you'll have the time, money, and freedom to escape the rat race and live very comfortably off your network marketing residual income! So work hard on this. Don't put this off. Again forward this ebook to each of your downline now which will massively help them to increase their recruiting. Work this strategy hard, like your very life depends on it for a while so that you can build that initial downline team you need!

After that you're downline will eventually start to build on their own and you can then relax. But for a while you need to concentrate, get lazer focused, and put the time and energy in, and commit to working this strategy.

So again, that's why it's super important to make sure you check off a few things on your too do list... which are:
